

AIR ENTRAINMENT METER 1 LITRE CAPACITY

Standard: EN 1015-7, EN 459-2, EN 413-2

Air Content / Void Content

This product is designed to determine the air content in cement mortar, cement paste, and lime mortar. It is directly connected to an analogue gauge to measure air entrainment within a range of 0-100%. The unit is constructed from cast aluminium, and both the test pot and upper section are airtight sealed.

NL 3034 X 002 is identical to model NL 3034 X 001, except that this version uses an electric mini-compressor to apply and maintain constant air pressure throughout the test.

Technical Specifications :

Model Number	NL 3036 X / 001	NL 3036 X / 002
Alternate Code	1.0335	1.0336
Fiiling Capacity	1 Litre	1 Litre
Class of Pressure Gauge	Class 1.0	Class 1.0
Product Dimension	Ø 180 x 330 mm	Ø 200 x 350 mm
Approx. Weight	4 kg	3.9 kg
Power	–	220~240 V, 50 / 60 Hz, 1 ph
